ith handsome Cabinet Tops..... ull Cabinet Case ......

The reasons why the introduction of the

HOWE

Sewing Machine,

Into this City has been attended with such

UNPARALLELED SUCCESS,

1st. They are less complicated, less liable to get out of order, more readily learned to operate upon Wholesale Grocers. Perwarding and decidedly the most

SIMPLE AND DUBABLE

Machines in the market. 2d. Having perpendicular motion to the needlebar, a straight needle, a wheel feed, and sufficient notive power, they are capable of doing a greater variety of work, sewing the finest and coursest fabries, than any other Family Machine. 3d. They make a

HANDSOMER AND FINER

Stitch, more uniformly alike upon both sides of the material than that made by any other Machine. 4th. Last but not least in the present tightness of the money market, the Machines are BETTER and come at a LESS price than any other first class Ma-

HOWE MACHINES

Are rapidly growing in popular favor, gaining the confidence of the people, and are destined to super-

GESTABLISHED REPUTATIONS," Ve respectfully refer to the following

TESTIMONIALS 151,095 72 from the large number we have received from our numerous city patrons:

Being called upon by Messra, Cone & Bro. for a testimonial touching the Howe Sewing Machine, and having bought and used one for the space of three months, and noticed the simplicity of its constrution, the very small power required to operate it, the neatness, uniformity and dispatch with which it rforms its work, and the fact that it has not in all that time given a particle of trouble to keep it in der-notwithstanding it has been operated a portion of the time by a girl only twelve years old, the latter advantage I had not expected to find in any schine. I had supposed that all gave more or less onble to keep them in order. Touching the ability of the machine to perform

ill kinds of work, I would my that with one of the \$30 machines I have found no difficulty in executing any work I have wanted to do with the machine, from the heaviest kerseys to the finest muslins. In view of all these advantages I hesitate not to recommend the Howe Machine to any one wanting a Sowing Machine. MRS. S. C. ROGERS, Wife of S. C. Rogers, of Graves, Marks & Co., 27 North High Street. The \$60 machine purchased from you gives per-

with many people to Sewing Machines, has been that a machine doing fine work, could not do heavy work, and vice versa; that objection is entirely overcome by the Howe Machine, and 903 10 for that reason I think it is better adapted to the wants of the people than any other family ly machine. I have formerly owned one of the Sin-8,816 to ger, and have seen and examined the other leading styles, and think your machine less complicated and nore ensity managed than any other.

To persone wishing a Machine executingfull varies. At kiss of thesis of the sunity. At kiss of thesis of the sensity. nore easily managed than any other. ties of work, winner, commend the Howe Machine.
W. H. MINCHIN, ties of work, without trouble, I most heartily re- small Firm of McKenzie & Minchin, 14 College street.

ness for general family use. We have used it in making up the heaviest fabrics, as well as the finest cambries, and it has performed all that was claimed It possesses power sufficient to penetrate with facility as many folds of cloth as are ordinarily used, Barto running over seams without breaking thread or nee- | s. dies or disturbing the regular motion of the machine in the least. The perpendicular motion of the needles, the conatant wheel feed, the same stitch on both sides, and

atant wheel feed, the same stitch on both sides, and its simplicity, reader it the ne plus ultra of Sawing Machines.

G. W. CURREY, M. D.

No. 92 Soring street. No. 92 Spring street. I purchased of Mesars. Cone Brothers one of Rebert M Balch and others, us. James C. Wilson and other

Having used all the leading machines for several years, owning one of Wheeler & Wilson's at the present time, and understanding theroughly, I nevyears, owning one of Wheeler & Wilson's at the present time, and undersated the throughly. I nevertheless do not health to say that I think the Howe Sachine superior to say and all others. Is never hand the Wheeler & Wilson's related the whole of a discuss of a discuss of the County Gent of Bartlen handsoner and finer work than the Wheeler & Wilson, and the sachine superior to say and all others. Is never a sach and seem of the County Gent of Bartlen handsoner and finer work than any other family machine. It news beautifully upon softmail muslin, and India lawn, and quilts upon the maked cuton, styles of work which cannot be done well will work the claws or jack feel used upon the Wheeler & Wilson, Graver & Baker, and Singer Family Machine. For attiching curs, cubroidery, quilting, and all varieties of work is is far superior to any machine I have ever used.

In the laboratory it is superior to the absolution means of abtaining heat, and will be found of invaluable service to the drag glet as well as to the manufacturing chamtet. Consumer in Winners, M. D., Prof of Chamistry in the Kentunky School of Medicine. From Rev. Steart Robbisto.

HOME TENTIMONIALS. From the Rev P & Pall, Numbers, Cor. T. H. Taylon-Deer Sir: There used, for more than time fully equal to it in dissentating power

From Mr Alumader Fall, Nushville. Me Thomas H Taylor.—Dear He? I level been using the Ven-per Gus Lump, sold by you, since Septemborlest, and I am per-fectly antiched that h is one of the mist economics. If more your most commenced, as well so by Hillant lights that can be land. It is easily managed, and I, understaffingly, recommend it is all out of the reach of gas.

Alexanters Fain.

From Scalary & One das Filters Nashville
The Vesper Gas makes a brilliant and beautiful light, that is characteristic and perfectly sain. The constructions of the Vesper Gas Engagement of the Large and colors and court, is so perfectly along is, that it consists pet out of orders and court, is so perfectly along is, that it consists a management of the barrier is cashly understood, and requires but bitle more attached to keep along, and in pool order than ordinary gas detacted. The light produced by the Vesper Gas we consider fully equal, in every magnetic to any other hand of Gas Hight.
